14. FIRE SAFETY

MPS has a detailed and robust fire safety arrangements and these are detailed in the Fire Safety Manual.

15. LUNCH AND BREAK TIME SUPERVISION

15.1. Staff Pupil Ratio

The safe staff to pupil ratio on the yard is 1 adult per 30 children with a minimum of 2 staff. Some children with particular needs may need one to one support at breaks and should not be included in the staffing ratio.

15.2. Authorised Playground Staff

Staff on duty should ensure that they are on the playground before or at the same time as the children. Teachers releasing children to the yard must be sure there is someone on the playground.

15.3. Positioning, Sight Lines and Roles

One member of staff should position him or herself at the top of the steps outside Alps class this role is referred to as the Spotter. Their role is to scan the yard continually for dangerous occurrences or behaviours. They shall be equipped with a loud haler to be used to quickly intervene to prevent injuries or misuse of equipment. The loud haler should be used to politely direct children away from dangerous behaviour. Spotters should avoid bending down to speak to children and ensure that they are facing the yard at all times.

Another member of staff is allocated the role of **the west-end patroller**. This person should be moving around the area of the tree and the corner of the playground next to the Children's Centre to ensure there are no dangerous occurrences or behaviours. Particular care should be taken in looking for potential bullying in this area.

These two roles need to be covered at all times. If someone is called to deal with first-aid or for any reason is unable to keep to the role another member of the team should step in. If no one is available the senior manager on duty should be called in.

Other staff should position themselves so that they can keep an eye on as much of the yard as possible while talking to children.

15.4. Intervening in Potential Problems at the First Opportunity

With careful observation and scanning it is possible to pick up on small problems such arguments, teasing, rough play or an isolated child. These should be dealt with in a low key positive ways:

- ✓ Simply moving closer to be a witness to the problem can be enough
- ✓ Encourage arguing children to express their feelings to each other by modelling the appropriate language eg: “I feel angry when I get tripped up” or “I don’t like it if I get left out of the game”
- ✓ Try to hear and accept children’s feelings by listening carefully and naming the feeling “It seems like you’re quite angry/upset/sad/disappointed about this problem.
- ✓ Avoid becoming part of the problem. Sometimes children report something after saying “I’m telling on you” to a child. Make sure you hear both sides of the story before making any judgments or taking any action.
- ✓ Often children can sort out the problem together: ask children to sit down and talk while you are near by. Appeal to the person who isn’t upset to help the upset one be happy again (without any judgment).
- ✓ Use warnings to deal with poor behaviour
- ✓ Keep a regular watch on vulnerable children
- ✓ Check with senior staff if you are unsure, our first priority is children’s safety and happiness.

15.5. Dealing With Violent Incidents

Violent behaviour must be referred immediately to a senior member of staff by radio or by sending a trusted pair of children.

15.6. Wet Play

During wet playtimes and lunch times children must be supervised in classrooms at a ratio of one member of staff per classroom.

Snowdonia and Alps class are both supervised in the Alps classroom. These children need to be escorted in groups to the room.

One staff member can supervise both in the Hall and Himalayas class as long as both doors stay open and the supervisor moves between the two rooms frequently. Children with a 1-1 supervisor can be used to supervise a whole class but must call on the senior manager on duty if difficulties arise. Senior

staff should fill in any gaps in this ratio. It is up to the lead supervisor to allocate staff to classes.

Where it starts to rain during playtime children need to enter the school under the instructions of the senior manager on duty.

15.7. Use Of The Field At Lunchtime

Children may be allowed on to the field under the following conditions:-

- ✓ All gates to the field apart from the school access gate to be locked

Where activities take place off school premises a requisite number of first aiders must accompany the group. First aid duties will be indicated in the Weekly Diary and in the Daily Checklist.

16.1. Health and Accidents to Children or Staff

School staff are expected to take reasonable action as responsible adults, to deal with injuries that children sustain until the child can, if necessary, receive professional medical treatment.

First aid and medical treatment is available in the playground during break and lunch and in reception at other times. Disposable gloves should always be used when dealing with blood and then be placed in the medical bin. First aid boxes for school journeys are available. Supervisory Assistants have the responsibility of dealing with minor accidents at lunchtime. If a child receives a bump to the
